

Curriculum Vitae

Jonathan Tuttle

40 Gorseway, Hatfield, Hertfordshire. AL10 9GS
Tel: 07817 787646 Email: jon@knightfallproductions.co.uk

Welcome to this, the CV of me, Jonathan Tuttle. What follows is a brief history of my skills, employment and qualifications, which hopefully will meet with your standards and requirements.

I am a well motivated individual. I work well both on my own initiative and as part of a team. I am of the belief that a job should not be left unfinished and will work to ensure that a task is completed, even if that means working beyond my stated hours. I would rather have a happy customer, than an evening spent worrying that I should have finished the task I was on.

Employment History

From	To	Workplace	Position/Duties
23/07/07	27/08/10	Herts Signs & Graphics Ltd Hatfield	Senior Design Consultant Duties included: Creating new artwork for customers vehicles, shop fascias and corporate stationery. 01/09/90	01/07/95	Wildern Secondary School. Hedge End, Southampton.	8 GCSEs including Science & English

Other Achievements:

I won a university prize for designing, organising and managing our end of year exhibition, along with another colleague.

I was also consulted by author Peter Anghelides on the design of his book cover for his novel: Dr Who: Frontier Worlds.

I have also had a piece of my work published in 3D World Magazine (issue 08).

Software Skills

I have used a wide variety of software throughout my design career, both as a hobbyist and professionally. I have been using 3D Studio MAX for over 10 years, and own my own, fully licensed version of Max 2011. I am well versed in its many tools and rendering engines, notably Mental Ray. I have created 3D work for clients such as Honda, Sleepyzee, Staffordshire Police and others. I can model as well as animate.

For 2D design work, I use both Photoshop and Illustrator, to version CS4. I have also used Corel Draw X3 for logo recreation work, as I feel it has a better node editing engine than Illustrator.

Other software used: Microsoft Office Suite, including Outlook and Access; OpenOffice suite, Adobe After Effects, Flash, Fireworks & Dreamweaver, to version CS4; Borland Delphi; Autodesk Maya & Zbrush.

Further examples to those attached can be found at my website www.knightfallproductions.co.uk
